

About our new neighbor:

The Montessori Philosophy

Ithaca Montessori Moves To Lansing

(Continued from page 1)

and will soon install the wall cabinets.

Though the official move is scheduled for the Nov. 8-11 Veterans' Day weekend, parents, staff and volunteers have already been hard at work transporting as many things as possible. The playground has already been re-located and many things have been moved into storage at Dr. Leonard Newton's next door office. "We've been so fortunate," smiled Remkus.

"The move is a big thing for us," said Remkus in a hushed tone. She has the same mixed feelings of leaving a house after twenty years: sadness at leaving and anticipation of a wonderful future.

"Something bright and new is waiting for us," she concluded.

TACTILE EXPERIENCES are part of a philosophy that stresses the child's social, emotional and physical development.

If you would like information about early childhood programs at the Ithaca Montessori School, call Mrs. Remkus at ###-####.

HANGING TEN (or 20) doors is no big deal for artisans Skip Percey, Steele Steffy, Mark Barber and Greg Koski as they put the finishing touches on the new Ithaca Montessori School on Ascot Place in Lansing Village before the November 8-11 moving days.

Lansing Senior Notes

The October 16 "Mystery Trip" was a delight, made more enjoyable by beautiful sunshine and foliage. From our departure in Lansing to our arrival in Wellsboro, Pa., it was a panorama of color.

A guide escorted our seniors to the railway station. There, we climbed aboard for a nostalgic 1 1/2 hour ride through the lovely countryside.

Dinner at "The Antlers" was bountiful and enjoyable.

We spent the afternoon at the "Grand Canyon of the East." This is one of God's great creations.

All in all, the Lansing Seniors thought that this trip was one of the best of the year. It will be long remembered.
